7mm Scale Locomotive Wheels

Tarif SLATERS Roues 7mm (Echelle Zéro) Chaque package comprend 2 roues, un axe et si nécessaire des vis de fixation (clé BTR ANGLAISE). Quelques roues ont des axes de 1/8" (soit 3,17mm) cela est indiqué dans la ligne. Les roues marquées O/C ont un axe d'extension pour permettre une fixation de bielles externes. Attention une clé "ALLEN" est nécessaire pour la majorité des axes carrés. La clé X78001 est destinée à la majorité des axes de 3/16" et les axes de 1/8" nécessitent la clé 78003

Scale 7 Locomotive Wheels

The wheels listed are made for the Martin Finney 'Rover' kit, but may suit other BG locos. The driving wheels are mounted on a 3/16in axle (requiring our standard Allen key); the tender and carrying wheels are on a 5/32in axle.

Slater's also manufacture a small range of other Broad Gauge and also Standard Gauge Locomotive Wheels to S7 profile. These are sold exclusively by the Broad Gauge Society and the S7 Society (respectively), to whom enquiries should be addressed.
